Course Identification

Course Number: CH3540
Course Name: Biophysical Chemistry
Course Location: 104A Chem Sci
Class Times: MWF 12:05pm to 12:55pm
Prerequisites: (BL 1020 or BL 1040) and CH 1120 or CH 1122 or (CH 1160 and CH 1161) and MA 2160 and PH 2200

Course Description/Overview

The goal of this course is to examine fundamental physical principles underlying complex biological systems in order to understand the interactions and behaviors found in biological, biochemical, and physical systems. Topics include macromolecules in aqueous environments, spectroscopy and structure determination, kinetics, membranes, and transport phenomena.

Course Learning Objectives

After completing the course, the students should be able to do the following.

1. Should have broad knowledge and understanding about the physical principles underlying biological phenomena.
2. Have understanding of how solution dynamics, thermodynamics, kinetics, and spectroscopy can be applied to biological problems.
3. Have understanding of proteins, its role in cells and its function at molecular level.
4. Have ability to identify and formulate strategies to characterize biochemical and biophysical properties of macromolecules such as DNA and proteins.
Course Resources

Course Website(s)

CAMPUS Learning Management System (LMS): Michigan Tech is using LMS called CANVAS. To access CANVAS, go to http://mtu.instructure.com and enter your Michigan Tech ISO username and password. Once logged in, you can select your course from the “courses & groups” menu. Select the one that is labeled “CH3540 Biophysical Chemistry (tiwari)” for access to class related materials.

REDINOTES: The class PowerPoint slides will be made available on CANVAS for you to download and print. These notes are NOT designed to replace taking good notes, but they will allow you to pay closer attention to classroom discussion, and write down any additional information.

Required Course Text

BOOK: Biophysical Chemistry by James P. Allen.

Other additional readings as required.

<tr>
<td>X</td>
<td>Conditional, with no grade points per credit; given only when the student is at fault in failing to complete a minor segment of a course, but in the judgment of the instructor does not need to repeat the course. It must be made up within the next semester in residence or the grade becomes a failure (F). A (X) grade is computed into the grade point average as a (F) grade.</td>

Late Assignments
Any assignment which is delayed more than 1 day will have 10% marks cut; up to 3 days 20% marks cut. Any assignment late by one week or more will not be used for grading.

Course Policies
Active class participation is required e.g. asking and answering questions, presenting thoughts/ideas relevant to the topic of the day. For homework/assignment individual study is encouraged.

Attendance at all of the class session is mandatory unless you are sick. You are responsible for announcements made in class.

Collaboration/Plagiarism Rules
While collaboration is encouraged students should not copy work from each other and should read and follow the academic policies and procedures as governed by the University (see below).

University Policies
Academic regulations and procedures are governed by University policy. Academic dishonesty cases will be handled in accordance the University's policies.

If you have a disability that could affect your performance in this class or that requires an accommodation under the Americans with Disabilities Act, please see me as soon as possible so that we can make appropriate arrangements. The Affirmative Action Office has asked that you be made aware of the following:

*Michigan Tech complies with all federal and state laws and regulations regarding discrimination, including the Americans with Disabilities Act of 1990. If you have a disability*

Course Schedule

**Homework:** Assignments will be due on Monday before the class starting week 3.

**Quizzes:** Short quizzes will be given in class.

**Exam Schedule:**

- Mid-term Exam 1: February 2, 2015
- Mid-term Exam 2: March 2, 2015
- Mid-term Exam 3: April 13, 2015
- Final Exam: During the week of April 27, 2015

**Final exam** dates are located at www.mtu.edu/registrar (look under Most Viewed Pages)
